DEFENSE REUTILIZATION & MARKETING PROGRAM – MODIFIED COURSE (DRMP-MOD) (ALMC-TB)

MODES AND DURATION:
Resident – Up to 40 hours
Onsite – Up to 40 hours

POC: DSN 539-4315/(804) 765-4315
drmoc@lee.army.mil

PREREQUISITES: Course is available to anyone (federal, state, military, civilian, contractor personnel and foreign nationals) requiring knowledge of any functional area of the Defense Reutilization and Marketing Program.

SCOPE: Course will be tailored in length and scope to meet the individual educational needs of the requestor. It is designed so as to cover in any level of detail DRMP policies, programs, operations and organizational responsibilities including but not limited to: account illumination and maintenance; receipt, storage and issue procedures; reutilization; transfer; donation; sale; trade security controls and ultimate disposal of DOD excess and surplus property. Other specific missions the course is designed to cover include: demilitarization; precious metals recovery; recyclable sales; hazardous property processing; and other special item requirements. Emphasis is placed upon correct documentation requirements and property accountability through the disposal cycle. Course can also be tailored to the perspective of the auditor or criminal investigator.

For help in enrolling students in the Army Training Resource Requirements System (ATRRS), please access the ATRRS Help Desk via the ALMC web page at www.almc.army.mil or phone (804) 765-0007 or DSN 539-0007.

NOTE: The ILMC may be mandatory for some DOL positions once the Mandatory Training for Garrison Staffs is approved by IMA.

US Army Logistics Management College

Fort Lee, VA 23801-1705

Installation Logistics Curriculum

www.almc.army.mil

ALMC provides installation-related logistics training in INSTALLATION LOGISTICS, REUTILIZATION & MARKETING, and INTERSERVICE SUPPORT AGREEMENTS.
This brochure outlines training opportunities
That not only will help installation personnel perform their jobs better but ensure installa-
tions are taking the best possible advantage of resource saving/producing activities.

DEFENSE REGIONAL INTERSERVICE SUPPORT (DRIS) AGREEMENTS COURSE (ALMC-RS)

MODES AND DURATION:
Resident−1 week
Onsite−1 week

POC: DSN 539-4503/(804) 765-4503/4721
dris@lee.army.mil

PREREQUISITES: This course is designed
for DOD military and civilian support agreement managers, financial managers, functional managers, and manpower personnel requiring knowledge or use of skills associated with managing support agreements.

SCOPE: The course curriculum concentrates on support agreement regulatory policies and procedures; organizational functions and responsibilities; costing as it relates to support agreements, negotiation procedures and preparation of DD Form 1144.

NOTE: Every installation (all services and federal agencies and activities) must have a support agreement program IAW DOD

INSTALLATION LOGISTICS MANAGEMENT COURSE (ALMC-IN)

MODES AND DURATION:
Resident−2 weeks

POC: DSN 539-4351/(804) 765-4351
ilmc@lee.army.mil

PREREQUISITES: Nominees should be commissioned officers (LTC or below), warrant officers, enlisted personnel (E-5 to E-8), civilian employees (GS-5 to GS-13), or local national employees (English speaking) of comparable grade or rank. Objectives are well suited for the branch and division chief/mid-level manager operating in an installation DOL (ASG or BSB) support activity. *DOLs; Deputy DOLs; Directors of Operations, Transportation, Supply and Services; and Property Book Officers would greatly benefit from ILMC.*

SCOPE: Provides coverage of all functional areas of Directorate of Logistics (DOL) responsibilities, practices, and problems at all levels of the organization to develop and increase competence and effectiveness in logistic support at the installation. Course focuses on installation transportation and distribution operations; the role of contracting and contract management personnel, stressing the roles and responsibilities including IMPAC card management; dining facility management; non-tactical vehicle fleet management to include fuel management and environmental hazardous incident prevention methods. ILMC also includes extensive discussion of installation budgeting process with a comprehensive practical exercise in "resource" management and looks at

DEFENSE REUTILIZATION AND MARKETING SYSTEM: AN INTRODUCTION (44-80)

MODES AND DURATION:
Correspondence—20 hours

POC: DSN 539-4315/(804) 765-4315
drmoc@lee.army.mil

SCOPE: This self-paced course provides an overview of the Defense Reutilization and Marketing Program. Emphasis is on program objectives, organizational structure and relationships, and missions and programs.

HOW TO ENROLL: Students can enroll for this course by accessing the Army Institute for Professional Development (AIPD) website at http://www.atsc.army.mil/accp/aipd.htm. Enrollment procedures are in PA Pam 350-59 (also accessible through the AIPD website).

NOTE: The critical nature of the DEMIL program requires that all personnel responsible for determining what should be excessed out of the supply system such as DOL Maintenance Chiefs, Inspectors and Classifiers, Installation Supply Officers, Environmental Coordinators and personnel responsible for Surplus Sales be properly trained in the regulatory requirements associated with the disposal process.
